

COOKIE POLICY

Last updated: 8 September 2025

This Cookie Policy describes what kinds of cookies and similar technologies Pirefi uses in connection with our Services (as defined in our Privacy Policy), and how you can manage them. This Cookie Policy does not address how we process your personal information outside of our usage of cookies. To learn more about how we process your personal information, please read our Privacy Policy.

TYPES OF COOKIES

Cookies are small text files that may be placed on your device when you interact with online services. They can help websites remember details about your visit, such as your preferred language or when you logged in, which can enhance your experience on subsequent visits. Cookies can also be used for other purposes, such as troubleshooting errors, better understanding service usage, and supporting marketing efforts. Cookies set directly by us are called first-party cookies. We also use third-party cookies, which originate from a domain different from the one you are currently visiting. Similar technologies, such as pixels, web beacons, sharing of device IDs and other identifiers via APIs or local storage, can also be used for these purposes. For simplicity, we also refer to these technologies as “cookies” in this Cookie Policy.

- **Necessary cookies**

These cookies are required to operate our Services. For example, they allow us to authenticate users or enable specific features within the Services, including for security purposes.

- **Analytics cookies**

These cookies help us understand how our Services perform and are used, such as the number of users, and how they interact with our Services.

- **Marketing Performance cookies**

These cookies help us support and understand the efficacy of our marketing efforts, such as measuring the performance of marketing campaigns to enhance the Services’ visibility.

MANAGING COOKIES

Depending on applicable law, you may be able to choose which cookies are used when using our Services. If you are in a jurisdiction that allows for that control, you can access your cookie settings directly on our various sites. Your web browser may also allow you to manage your cookie preferences, including to delete and disable cookies. You can take a look at the help section of your web browser.

Please note that changes you make to your cookie settings may affect the availability or functionality of the Services. Cookies listed as “**Necessary**” are required for the Services to function and cannot be disabled.

Cookie settings are device- and browser-specific, so you will need to set cookie preferences for each device's browser.

ADDITIONAL INFORMATION

For additional information about cookies, including how to see what cookies have been set on your device and how to manage and delete them, please visit <https://allaboutcookies.org/>.

You can send any questions to support@purefi.io.
